Dear Professor Wei Chen,

It was a great pleasure meeting you at the last National Conference on Environmental Chemistry and at The University of Hong Kong last summer.

Your research on the fate and transport of new pollutants, as well as nanotechnologies for subsurface remediation is of great interest to me, my colleagues, and postgraduate students.

If it is convenient for you, I would like to invite you to visit The University of Hong Kong for an academic exchange from March 11 to 16, 2025, to explore potential collaborative opportunities.

I look forward to hearing from you.

Sincerely,

Tong Zhang, Ph.D.
Chair Professor,
Department of Civil Engineering
